Gleichen Fair This Week

As will be seen from our advertising columns, Gleichen, our neighbor to the east, is holding its annual Fair and Sports on Friday and Saturday, August 15th and 16th. \$2500 is offered in fair prizes and \$500 for sports and entertainments. There will be baseball, auto races, bucking contests, horse races, and various other attractions. Gleichen has put up a great programme, and an enjoyable time will be had there this week-end.

Mr. D. M. Robison, Carlsland, had two neices from Washington visiting him last week.

Mrs. James Martin has returned from a week's visit to the home of her daughter, Mrs. Snipe, at Grim, Alberta.

Miss McVitty is expected in Strathmore, at the end of this week as the guest of Mrs. Patrick.

Mr. and Mrs. H. J. Spicer, Mrs. A. Fraser, Mr. Newton Fraser and Miss Marguerite Fraser from Calgary, were the guests of Mr. C. W. Chase and family on Monday. Mr. Spicer was the first principal of the Strathmore school and is now principal of Sunnita school, Calgary.

Harvesting is General

Another week of warm weather following on the recent rains has brought grain well ahead, and harvesting is now well under way in most districts.

This is an early harvest compared with most years, caused by the hot weather of the larger part of the summer season, and the light rainfall.

However, the rains made during the past four weeks have made a great difference in the crop outlook, and most of the farmers are going to have much better crops than they had figured on earlier in the season, especially in the eastern part of the district and with a good price for wheat the return will be much larger than it was last year.

Late oats are making a wonderful recovery, and many crops that had been thought good for feed only are going to produce good threshing returns.

The sale of binders and binder twine is much larger than had been anticipated, and the local dealers have not up until shipped out a large number within the past two weeks.

Considering the conditions are throughout most of the south country as shown by the last crop report of the Provincial Government, published in last issue, people throughout this district have reason to congratulate themselves on the crop outlook for 1919. The hail damage this season in the Strathmore area has been confined to 2000 acres west the Bow River, and partial damage to some 7500 crops of small-seed crops. Of course, it is never safe to prophesy about hail, but the hail season usually is earlier than the present date.

Threshing will be in full swing in a couple of weeks time.

Irrigation throughout the Western Bow Valley has proved itself of great utility this year, and will result in some good yields. Mr. J. A. Cameron, 8 miles east of Strathmore, has probably the best irrigated crops in the neighborhood. His wheat stands over four and a half feet high, and is very heavy, and looks good for fifty bushels per acre. His other crops, flax, oats, alfalfa, etc., are proportionately good.

Local Items

Rev. and Mrs. T. F. Lund of Carlsland, were visitors at the Parsonage on Monday.

Community Picnic, Wednesday, August 28th, in the Town Park. Everybody come and bring your lunch baskets. Full program of sports arranged to begin at 2 p. m. Supper at 5 p. m. See posters.

The flourishing condition of the weeds around Strathmore should be a humiliation to any citizen of a community situated in one of the best agricultural districts of the West. They are all over the place, at the edges of the sidewalks, and on vacant lots, and they are now seeding. It is high time the Council took immediate action. But perhaps they are running to seed also.

Over sixty new binders will be shipped out from here this fall.

Miss Corley, who has been playing in the tennis semi-finals at Calgary, is at present the guest of Mrs. A. Campbell at the Demonstration Farm.

Strathmore G. W. V. A. are holding a social meeting in the King Edward dining room, on Tuesday, August 19th, and it is hoped that all the members will find it possible to be present. Major Redman, M. P. for East Calgary, has been invited to attend, and has accepted the invitation.

Joe Van Tighem, manager of the local branch of the Union Bank, will be on holiday at the coast for the next two weeks.

Local Notings

Nightingale Women's Institute are holding a Bazaar and Supper on Friday evening, August 15th. A dance will be held in the evening, and a good time is assured.

Mrs. C. H. Jacobson, was married in \$5 and costs at the J. P. Court on Friday, on the charge of taking orders for subscriptions without a license.

A daughter was born to Mr. and Mrs. Uchino, Jap Colony, on Thursday last.

The M. E. Ladies' Aid will hold a pantry sale in the King Edward Hotel sample room, on Saturday P.M., Aug. 16th 13-8-19.

The M. E. Ladies' Aid met last Thursday P.M. at the home of Mrs. E. V. Todd. After the usual business meeting was over a short musical program was enjoyed by all. A chairing lunch was served by the hostess.

Mr. Spicer, formerly principal of Strathmore School, and now principal of Victoria School, Calgary, was here on a visit, along with Mrs. Spicer, on Monday.

The Red Cross Ladies of Namska, gave a cash donation to the Hospital Fund of \$8.00, and Mrs. McLean and Mrs. Sim each donated a pair of sheets.

Mr. and Mrs. J. G. Bell and family of Taber, arrived last week to take up residence in the house recently vacated by Mr. M. S. Hillier. Mr. Bell, who is a brother-in-law of Mrs. E. Dobson, will manage the N. Basil Elevator here.

The Women's Institute will meet at the home of Mrs. S. E. Hall on Wednesday, Aug. 20th. Roll call. Current events. Subject—How may the problem of the Home Maker and the New Comer be met by the Women's Institute. A cordial invitation is extended to all ladies to be present.

Some estimate that the recent hail storm damaged crops to the extent of half a million dollars throughout the district it passed over. This is a hard blow to some of our farmers, especially those without insurance. The rain, however, accomplished great good and most of those hailed will have considerable green feed.—Call, Gleichen.

The death took place on August, of Mr. G. E. Hyde, an old and well-known resident of Kluny district. He was well-known all over the Bow Valley, and there was a large attendance at his funeral, which took place at Gleichen on August 9th. Among the many floral tributes were wreaths from the Engineering Department of the C.P.R., Department Natural Resources, and from Mr. and Mrs. Ridley, Strathmore.

Mr. Wm Tierney is starting in business here as tailor, also repairs, alterations, etc., and is having a building erected for him on the vacant lot next the Opera House. Bill is a very competent tailor, and is well-known here. He did a long period of service in France. He is getting in some special machinery for the purpose of handling cleaning and pressing, and will have an up-to-date tailor shop.

Mrs. T. Philips will be "at home" on the second and fourth Thursday of each month, at the Parsonage, Second Street.

F. T. McElhoes is at present on holiday at Banff.

Plymouth Binder Twine

Clear Your Scalp and Skin with Cuticura

After shampooing and before bathing wash scalp and hair with Cuticura. Wash all over with Cuticura Soap and water. Using plenty of Soap lets Cuticura work with the hands. One Soap for all uses. Shampoos, cleanses, soothes. Finally don't forget your Cuticura. Cuticura and Cuticura add everywhere.

Callings Followed By Returned Soldiers

Agriculture Makes a Net Gain of 1533 Miles.

Ottawa. — Up to the present 23,414 members of the Canadian army have completed the 12,000-mile questionnaire which was issued by the Department of Soldiers Civil Re-establishment. Of this number 8,721 expressed their wish to engage in stock-raising or agriculture. Of them, 20,000 are leaving their occupations to take up agriculture. At 4,716 men recently engaged in farming, have expressed the desire to take up other lines of activity, agriculture makes a net gain of 15,333 men. Accessions to professional and general occupations number 20,409, those being on the other hand, 12,708 men who desire to leave their occupations. It is interesting to note that one out of every five soldiers is anxious to change his method of earning his living on getting out of khaki.

Cures Catarrh, Bronchitis, Without Any Drugs

If you suffer from a cold, sore throat or catarrh—don't use a stuff-nose or a throat lozenge. It is a throat lozenge. It breaks and soothes, brings relief at once, cures thoroughly. In bronchitis and throat trouble, no doctor can do better than prescribe Catarrhin. Try it. You will find it wonderful. It will cure you. Different from the old way—no pills, Catarrhin. See the dollar note which includes the bottle and 100 Catarrhin. Send. Smaller size 50c, sample size, 25c, at all druggists.

Airplane Fell With Russian Coin

Russia. — A special dispatch to the *Latvian Avenger* from Riga, Rye, Lithuania, says a large German airplane belonging to a German airship works, fell during a flight, killing seven of its occupants, including the pilot, being a long time.

The accident occurred near Riga. The airplane carried three Russian soldiers in Ukrainian army, and a sack of Russian money.

The dispatch says the airplane carried important documents, about which the Ukrainian government,

Flying In Winter Weather

Aviators Say Extreme Cold Be Combated For Commercial Traffic in Winter.

Winnipeg. — Flying in Manitoba in winter time is possible and probable, said Captain A. L. Coff, late of the Royal Air Force. "The extreme cold can be easily overcome by electrically heated apparatus and clothing. The service flying is even more economical for the airman as it is derived from a small electric engine, driven by air screws. The whole apparatus weighs only five pounds."

Capt. G. A. Thompson, of Guelph, Ont., and late of the R.A.F., also told of his experiences of winter flying in France. "Without electrically heated clothes or any of the latest inventions that not only make winter flying possible, but also enjoyable, I have flown until my engine radiators have become frozen from the intense cold," he said. "Of course," he added, "with the anti-freeze preparations now obtainable this difficulty has been overcome."

Captain Coff and Captain Thompson are at present in the city for the purpose of organizing and promoting a committee for the purpose of commercial aviation by airplane.

Under Nihilistic Regime. — Omak. — Petrograd's population which was more than 2,000,000 in 1917, has decreased to 1,500,000, according to documents and newspapers taken from nihilistic prisoners. The decrease in population was shown to have diminished by 40 per cent.

Wants are disquisitions that disagree when treated with Hallway's Cough Cure.

The sooner some men get married the longer they have to repent.

Dr. Harvey W. Wiley, a recognized food expert, said that the use of white flour instead of the whole wheat flour is one of the worst things for the public health he conceived.

Many Defaulters in Jail. — Quebec. — There are 122 inmates at present in the Quebec jail, 80 of whom are defaulters under the M.S.A. Act.

If Miller's Worm Powders needed the approval of testimonials, they need it. By the thousands of mothers who know the great virtue of this excellent medicine. But, they need no question of them. They are tried, and they are true. They are administered with ease, and they are the best. It is interesting to note that one out of every five soldiers is anxious to change his method of earning his living on getting out of khaki.

Tracing The Missing

London. — Missing Officers Have Many Men Unaccounted For.

London. — Records offices in London of the various overseas forces are making their best efforts to find out the fate of the missing. Up to the present, the missing are accounted for in the total count as accounted for. Not all these men are considered to be definitely lost. Some have been on foreign, and accepted work under the formality of communicating with the authorities where they are, and returned and sent home in perfect order to returning to camp and telling the casual officers are really none of them.

The South African have lost 25,000 men, every officer of the 20,000 who came over being accounted for. The New Zealanders are 200,000 short.

Most of the missing are Australian and Canadian, and it will take a long time to get them back.

The accident occurred near Riga. The airplane carried three Russian soldiers in Ukrainian army, and a sack of Russian money.

The dispatch says the airplane carried important documents, about which the Ukrainian government,

No Minimum Price For Wheat

James Stewart is President of Wheat Trade Members.

Ottawa. — Sir George Foster, minister of trade and commerce, officially announces the appointment of James Stewart of Winnipeg, formerly by head of the wheat purchasing committee, to the position of president of the new board, which has been created for the purpose of handling the Canadian wheat crop. The several states that the board will comprise ten or twelve members, most of whom will constitute themselves as an executive committee. The full board has not yet been made up.

Sir George Foster states that there is an apparent misunderstanding of the board of the proposal which has been agreed upon for the handling of the crop of wheat. He declared, "that the government is fixing a minimum price for wheat. Such is not the case. What the government proposes is to pay the farmer a set price as the initial minimum for his wheat. It will relieve him of the responsibility of marketing it. When the grain is sold at a profit, the farmer will be the owner of the profit. The farmer will secure the difference between what he got and what it is worth. He will transport and export his own grain."

Rolling Stock in Canada. — The locomotives on Canadian railways in 1918 were 5,700 in number. The passenger service, 6,700, cars in freight service, 29,243, cars in passenger service, 10,000, as shown in figures compiled by the Department of Railways and Canals.

Local Dealers Cannot Be Cured. — The local dealers who are not cured of their habit of selling only one brand of goods, are not cured of their habit of selling only one brand of goods.

History of Prohibition. — The prohibition movement in the United States will be reviewed at the fifth annual convention of the National Prohibition Party, to be held here September 1 and 2. This will be the first time since 1914 that the party has held a convention in this country.

Belgium Demands Redress

Brussels, Belgium. — The Antwerp branch of the committee of the Belgian National Party has telegraphed to Mr. A. De Weert, that the people of Antwerp anxiously await the rectification of the century-old wrongs committed against the city.

Common ownership, they declare, only means dissensions. Belgium demands direct access by a channel to the sea, and the restoration of sovereignty and also redress for the crime of 1830. The telegram adds: "The linking up of the port of Antwerp with the wharves at Liege, Namur, and Charleroi necessitates the possession of the Meuse in the Maasricht enclave."

Wireless Telegraphy In Night flying

Test Carried Out During a Recent Night Flight from Kenley to Paris.

London, England. — The extraordinary display of wireless telegraphy for directional purposes in connection with aircraft has been emphasized recently in its relation to night flying. It often happens that in day-flight, inter-communication between planes, or between wireless stations and aircraft is unnecessary, but in flying across country at night the use of the wireless phone will become more and more efficacious.

Some details are now available of a test carried out during a recent night flight from Kenley to Paris. This in no way constitutes a record, but is nevertheless interesting as indicating what is being done as a matter of routine. Wireless telegraphy has now been definitely adopted as a means of ground to air communication, and vice versa, on the London Paris route, and the test in question was made with use of the test machine on this service.

Communication was opened as soon as the Handley Page balloon, on the night of the test, was in the air, and after speaking to the ground station, the receiver was switched on and the test was carried out. The test was carried out by hand from Kenley. The officer conducting the test emphasized in his report, speed, quality, and strength, and states that he easily recognized the voice as that of an amateur, and that he was able to distinguish the voice of the pilot from that of 35 miles. The strength of signals was so great that speech from the receiver could be clearly heard at Kenley with the receiver laid upon the table. At 50 miles it was still distinctly heard and was heard until the aeroplane was crossing the channel and was in touch with Margate, the first ground station on the French side.

On the return journey communication between the machine and Margate was again picked up at Kenley, and the latter station was in communication with the machine until they were out of touch.

One of the recent developments of this connection is the prediction of an aeroplane set which can be controlled within a few moments on transmission of either voice or Morse signals.

Wireless Telegraphy In Night flying

Test Carried Out During a Recent Night Flight from Kenley to Paris.

London, England. — The extraordinary display of wireless telegraphy for directional purposes in connection with aircraft has been emphasized recently in its relation to night flying. It often happens that in day-flight, inter-communication between planes, or between wireless stations and aircraft is unnecessary, but in flying across country at night the use of the wireless phone will become more and more efficacious.

Some details are now available of a test carried out during a recent night flight from Kenley to Paris. This in no way constitutes a record, but is nevertheless interesting as indicating what is being done as a matter of routine. Wireless telegraphy has now been definitely adopted as a means of ground to air communication, and vice versa, on the London Paris route, and the test in question was made with use of the test machine on this service.

Communication was opened as soon as the Handley Page balloon, on the night of the test, was in the air, and after speaking to the ground station, the receiver was switched on and the test was carried out. The test was carried out by hand from Kenley. The officer conducting the test emphasized in his report, speed, quality, and strength, and states that he easily recognized the voice as that of an amateur, and that he was able to distinguish the voice of the pilot from that of 35 miles. The strength of signals was so great that speech from the receiver could be clearly heard at Kenley with the receiver laid upon the table. At 50 miles it was still distinctly heard and was heard until the aeroplane was crossing the channel and was in touch with Margate, the first ground station on the French side.

On the return journey communication between the machine and Margate was again picked up at Kenley, and the latter station was in communication with the machine until they were out of touch.

One of the recent developments of this connection is the prediction of an aeroplane set which can be controlled within a few moments on transmission of either voice or Morse signals.

Naval Pageant In Old London

Symbolizing Role of British Sea Services in War Were Five Miles of Craft.

London. — The important role played by the British sea services during the great war was commemorated by a naval pageant on the Thames, the day marking the fifth anniversary of the historic mobilization of the British fleet. Plans for the event, while giving recognition to the allied and associated powers who had taken part in the fact that this was a purely British occasion and the Union Jack and the banner of St. George, St. Patrick, St. Andrew and St. David predominated in decorations along the official route. The procession, which was marshalled at the Tower Bridge at 4 p.m., passed up river miles and miles to the head of the line reached Chelsea, and as it turned with the tide of the river was greeted with great enthusiasm on the bridges and perched upon railings and roofs of houses in view on both sides of the river save the pageant a tumultuous

The progress of King George is the royal barge was marked by particular attention. His journey up the river was greeted with great enthusiasm on the bridges and perched upon railings and roofs of houses in view on both sides of the river save the pageant a tumultuous

The progress of King George is the royal barge was marked by particular attention. His journey up the river was greeted with great enthusiasm on the bridges and perched upon railings and roofs of houses in view on both sides of the river save the pageant a tumultuous

District & U.F.A. Notes

We invite contributions to this page from all districts. If you have any items which you consider to be of interest, write, please, or call the Standard Office. We will be pleased to publish them. They can also be sent to the following correspondents, who will also take in your ads, subscriptions, or job work for the Standard:

Ardenburg—P. H. Donlin
Carleton Place—H. Hansen, U.F.A. Secy., or F. W. Moore
Cheadle—O. G. Miller, U.F.A. Secy
Crowsfoot—Robt. West

Harvey—S. B. Allison, U.F.A. Secretary

Namaka—S. W. Lawrie

Nightingale—E. H. Stoddley, U.F.A. Secy

Rockyford—Leat. F. Plonkin

Strathmore—H. F. Belvalrin

Some districts are as yet unrepresented. We want to hear from them.

We want everyone, U.F.A.'s especially, to co-operate in sending regularly notes of the news and personal items of each district to this page. By it you will know what other districts are doing, and others will know what you are doing, and consequently the interests of everyone will be advanced, and co-operation furthered. Look upon the Standard as your own paper. That is what we want it to be—a mirror of the news and opinion of the Western Bow Valley.

Contributors should endeavor to have their copy in by Sunday afternoon, or at latest Monday afternoon, at our forms close Tuesday. Paper and envelopes will be supplied on application.

John Mackenzie, Editor

Cheadle Notes

Mrs. Sin Meyers had a sister from Gleichen visiting over the weekend.
Miss Florence Tomlinson is home for a few days before going to Drumheller where she has accepted a position.

John Becker of the Cheadle Farm is around again after his accident.

Mr. and Mrs. Ray Miller left Saturday for a motor trip to Montana.

Dave Smith has received a new Rumely Oil Pull engine.

Miss Ethel Brown has left for a two weeks visit to Camrose.

Chas. Cheadle's team defeated Langdon at Langdon on Sunday and the juniors defeated the Strathmore juniors at Chas.

The Cheadle U.F.A. held a meeting on the 7th inst., and the question of the fixing of wheat prices was discussed. Some of the members seem to think the Union Government is doing the fixing of the price, but no one seems to know just what the outcome of the government's action will be.

WEDNESDAY—A pretty wedding took place on Thursday last, at Knox Church, Calgary, where the Rev. A. R. Whitcomb officiated in marriage. Miss Hannah Salter, of Delroy, to Mr. Wm. Brown, of Cheadle. The bride was attended in a smart navy blue gabardine suit with hat to match, was attended by Mrs. I. Merriam. After the wedding ceremony the wedding party was entertained at the home of Mr. and Mrs. W. Best of First street southwest.

Elwood Notes

Mr. Albert Thorsen and children are up from the Reserve visiting in the district.

Wheat and oat cutting started the past week.

Mrs. Elmer Litz and son are visiting from Swanton.

Mr. and Mrs. Ed. England of Crowsfoot, and Mr. and Mrs. Wheeler of Namaka, and Mr. and Mrs. Albert Thorsen and family from the Reserve visited at Elwood at Elwood, Thursday.

Some had left here on Sunday evening last, doing as much as 25 per cent damage on oats.

With D. Puchler, Art. Wilding, Miss Mason, H. Praker, L. Pinkerton and H. Harrison all getting new binders in a distance of three miles, don't look like this district is so badly dried out. Anyway there are some fine fields of oats on dry land.

U.F.A. and Wheat Prices

Two well-attended meetings of Strathmore U.F.A. were held during the present week, one on Wednesday and one on Saturday, at each of which the main topic for discussion was the proposition of the Government to "take over" the sale of wheat this season.

It was stated that the Provincial Executive of the U.F.A. had given out the information that the price of wheat was not as yet set at \$1.75 as had been reported in most of the papers, and that this might have been intended as a feeler to see how people would take it.

Mr. A. Weyers presided over meeting, and after considerable discussion the following resolution was passed unanimously:

"Resolved that we, the United Farmers of Alberta, Local No. 28, Strathmore, make strong objection to the fixing of a minimum price for wheat at anything less than \$1.25 at Fort William."

This resolution was ordered to be read to Mr. H. W. Wood, President of the U.F.A., and who is a member of the new Grain Board.

Mrs. Geo. Wade, Halkirk, Alta., has been here for several weeks as the guest of Mrs. T. H. Eves.

Crowfoot Notes

Mr. and Mrs. David England were out Sunday in a new Ford car.

Mr. Hipkin took dinner Sunday with Mr. and Mrs. Ed. Steiner.

Mr. Otto Wheeler was a Calgary visitor Saturday.

There was some wheat cutting last week but it will not be general until the middle of this week.

Mr. and Mrs. W. Harvey, Mr. T. Buckfield, and Messrs. Fred and Charles Harvey continued to Banff and spent the week there, and at Lake Louise. They were delayed several days due to the heavy rain.

A number from here attended the Baseball Tournament at Strathmore Wednesday.

Mr. Chas. Harvey has been on the sick list since his return from Banff.

Mrs. Elmer Litz has been visiting for a week with her parents, Mr. and Mrs. Frank Wheeler.

Mr. and Mrs. A. W. Miller visited Sunday with home folks.

Mrs. Fred Schmidt and Mr. V. Rose motored to Strathmore on Sunday.

Mr. Claud Shields, who has been playing in his place here, leaves for the "showers" given Mrs. England, several weeks more left to go. The article should have read "Strives in honor of Mrs. England." In the printed report several words were left out and this Sunday article look rather absurd, as if Mr. England was giving his own show.

O. R. Aikens came back to his farm in the Keoma District several weeks ago, after having been away about three years. He has been experiencing very dry weather down in Montana, and says that he would not exchange his quarter-section here for a section down in Montana.

Mr. W. F. Schaefer commenced threshing rye Tuesday morning.

WEDNESDAY, AUGUST 13, 1919

Town Council

A meeting of the Town Council was held on Tuesday evening, Mayor Lambert presiding. Council members present were Messrs Anderson, Bell, Boertz, and Saunders.

Constable Brown was appointed Inspector under the Motor Vehicle Act at a salary of \$30 per annum.

Attention was called to the condition of some of the roads leading out of the town, also various crossings, and Councillor Anderson was appointed a committee to make some improvements.

An application was read from John Mackenzie for exemption from taxes during the period he was overseas. This was refused.

Provincial Constable Vail called attention of the Council to the amount of weeds around the town. It was decided to notify owners and occupants of property to have the weeds cut.

It was stated that the work of draining the nuisance ground thirty feet back from the road had been completed, and the Council decided to move the fence back that distance, and erect notices warning everyone from dumping garbage on the road side of the fence.

Alleged Removal of Road

A peculiar case was brought forward one day last week, when some C.P.R. employees were summoned at the instance of the town on a charge of having removed part of the roadway at First Street. The horrible crime was not committed at dead of night. It took place in broad daylight, and many people had visions of Joe Smith, Dad Tibbets, and other residents of that beauty spot of our fair city known as First Street stepping out of their homes gaily and dropping into a bottomless abyss where the street had been.

But no terrible catastrophe happened. Instead it was explained that the excavation was for the benefit of the street, and that whereas previously there had been so much street that part of it had to be stood on end when it was first constructed, it was now fairly level. If any offence had been committed it was merely a technical one, and the justices looked at it in that light and dismissed the case.

BASEBALL

ROCKFORD LOSES TO STRATHMORE

A good game was witnessed on the local diamond on Sunday afternoon between Rockford and Strathmore. Up till the 8th, the game was fairly even, the score being 5-2, but Huggie went up in the air then, and let in six runs. Brown was in his usual good form and the visitors could not do much with his curves. Following are the scores, etc.

Strathmore—29001008-11
Rockford—00002000-2
Strathmore—A. White, r.f.; H. Anderson, 3b.; R. Knight, 2b.; Thompson, l.f.; Brown, p.; Kinnist, c.; N. White, c.f.; P. Bushman, 1b.; Lattig, s.s.

Rockford—A. Anderson, 2b.; White, s.s.; Huggie, p.; Hinch, c.f.; Miller, 1b.; O. Johnson, l.f.; Maier, 3b.; P. Anderson, c.f.; O. Johnson, c.f.

DRUMHELLER GAME TODAY

Today Strathmore meets the famous Drumheller team, and the game should be a good one. The Strathmore team are going to put on the field the strongest team that they can gather together. A Dance will be held in the Opera House for the benefit of the 11th Club funds.

This will possibly be the last game played by the senior team on the local diamond for some time, as most of the players are farmers and will be harvesting for some weeks to come.

Great credit is due to the boys for the way in which they have turned up to the games during the season, at great inconvenience, and sometimes at a loss to themselves. They have averaged throughout the season ten games per week, and some weeks three and four games. The team has been a consistent winner all through the season, having only lost six games out of about 30 played, and have defeated every team in the Bow Valley except Basinas.

"FRITZ" AWAY FROM HOME

There are plenty of German products which never saw the inside of Germany. Now that the term "Made in Germany" is the Mark of the Beast for the whole civilized world, most of the German products intended for sale to our customers will be made in Switzerland, Sweden, Holland, etc. Some of them will be made in the United States. Some of them will even be made in Canada. Some of them are being made in Canada today.

A commodity which before the war was a purely German product, which today is still using its old German name, and trading on its old German reputation—that commodity may dress itself up in maple leaves and have a President named Jones, and a German named Smith, and a sales agent named Robinson, but it does not cease to be a German preparation. There is only one way to "Play Safe" if you do not want to buy goods from a man whose religion may have sunk the Lusitania, or whose father may have ordered the shooting of Nurse Cavell. That way is to buy products which were never German, which have been made in Canada for people who were in Canada throughout the war and were doing what they could to help defeat Germany.

There is not an article formerly made in Germany which cannot today be manufactured by one or more Canadian or British firms as efficiently and as perfectly as it was ever made by the Germans. Of course the manufacturer must not merely be a loyal citizen, but also a good manufacturer of reliable articles.

In the drug business there were many articles of German manufacture sold in Canada before the war. Now these articles are made by Canadian firms, as efficiently and perfectly as they ever were by the Germans. Among them is **Aspirin**. The kind we carry in stock is not German in any sense, but is made in Canada by Canadians, and we guarantee it to be as good as the best in the world.

PRINTING

"The Art Preservative," has long been recognised as one of the factors in the building up of successful businesses. No one in any line of business can afford to neglect it. Some do, but the loss is theirs. The business goes to their more enterprising competitor.

Below is an illustration of the Intertype Typesetting Machine, one of the latest models, which we are installing at present in order to give our Advertisers, Subscribers, and Job Printing Customers better service

If you are not advertising now, start in. We are increasing the size of the Standard, and can find room for you. Get the benefit of the business of the district. It's yours, if you go after it right, and stand by what you advertise. Don't let the business go to outsiders.

Bring your stationery supplies up to date. Look over what you have on hand, and let us know your needs. We can handle anything in the line of printed matter, and our prices are the only thing cheap about our work.
